Incident Reports

For any incident other than those involving violation or interpretation of playing rules in League play, the manager, coach or umpire must submit an incident report to the League President within 48 hours of the game or incident in question. The incident report will be forwarded to the Discipline Committee to investigate the details by contacting all team managers and game officials and/or other parties involved in the incident. Should the incident report involve the conduct of a game official, the Discipline Committee will forward the incident report to the Umpire in Chief who will contact all game officials and team managers involved and will file a subsequent report back to the League President for review by the Discipline Committee.

Examples of Incident Report filing may be as follows:

- Conduct unbecoming a player, coach, manager or umpire, before, during or following a game.
- Unprofessional conduct of game or league officials, before, during or following a game.
- Concerns regarding, field playing conditions, crowd control or any other matter not deemed immediate enough to result in suspension of play at that time by the game officials.
